

WORK EXPERIENCE

- Young Lives – Study of Childhood Poverty; Quantitative Research Analyst** 2020 - present
- Directly involved in the development of four COVID-19 phone surveys (from survey design to analysis) in four low- and middle-income countries
 - Analysed data, and co-authored multiple policy reports and academic papers, investigating the multidimensional effects of COVID-19 on young adults
 - Presented my work at numerous international academic and policy conferences
- Periods For Hope – Non-profit; Co-founder** (<https://periodsforhope.org>) 2016-present
- Co-founded a non-profit organisation that aims to empower learners through reusable sanitary pad provision and sexual health workshops focused on menstruation, self-esteem, and gender-based violence
 - Raised over R200,000 via crowdfunding to provide re-usable sanitary pads to women and schoolgirls in South Africa
 - Run 10+ workshops to over 300 high-school boys focusing on menstruation and gender-based violence
- Vivid Economics – Economic Consulting Firm; Analyst Internship (2 months)** 2020
- Co-authored a [report](#) on the value of the planning systems in the UK
 - Researched, and helped inform reports on, the recovery plan of the Moroccan textile and apparel industry in light of COVID-19
